Come Back Around

[Feeder](#)

Turning into something
Drifting off to old ways
Got to pull myself back in
Holding back the questions
We're bruised with all rejection
Gotta pull myself back inSuffer the breaks
You know I still remember it
It keeps burning away
I know that you may take a while
To come back around
Come back around
I miss you aroundReaching out for someone
Burning out for so long
Got to pull myself back in
There's no new religion
And there's no real solution
Gotta pull myself back inSuffer the breaks
You know I still remember it
It keeps burning away
I know that you may take a while
To come backWe suffer the breaks
You know I still remember it
It keeps burning away
I know that you may take a while
To come back aroundCome back around
Come back aroundFeel you're going under
So keep on treading water
Got to pull myself back in
Feel no obligation
But no more indecision
Just gotta pull myself back inSuffer the breaks
You know I still remember it
It keeps burning away
I know that you may take a while
To come backWe suffer the breaks
You know I still remember it
It keeps burning away
I know that it may take a while
I know that you may take a while

To come back around
