

# What Makes Music?

## Sesame Street

What makes music?  
Anything makes music  
When you're happy on the inside  
Everything you hear is music  
An old tin can ... that's music  
A frying pan ... that's music  
A rubber band ... that's musicA paper and a comb  
A washer and a thumb  
A (???) and a big trombone  
What makes music?  
Anything makes music  
When your heart is open wide  
Then everything around is music  
And music fills the day  
Like nothing else on earth can do  
When I'm making music with you!What makes music?  
Anything makes music  
When you make a brand new friend  
Then everything you do is music  
La la la la ... that's music  
La la la la ... that's music  
La la la la ... that's musicA paper and a comb  
A washer and a thumb  
A (???) and a big trombone  
What makes music?  
Anything makes music  
When your heart is open wide  
Then everything around is music  
And music fills the day  
Like nothing else on earth can do  
When I'm making music with you!
