The Truth

An Early Ending

Speaking fast but talking slow
Because of this I'll never know
The answers
Concentrate and you will see
Everything that you can be
Can you find it?
You said you'd give up everything
Everything that you live for
But you wanted moreI'm beginning to
Understand the road in front of me
And I know in the end
You will finally see
The beauty around
I'll keep you safe and sound
Do you realize the truth?
I can't save youAnd as we know this life is more
Forgiving than the next one is
But you do this because you can
Concentrate and you will see
How much your love means to me
I can't find this in myself
You said you'd give up everything
Everything that you live for
But you wanted moreI'm beginning to
Understand the road in front of me
And I know in the end
You will finally see
The beauty around
I'll keep you safe and sound
Do you realize the truth?
I can't save you
