

# Make It Always Be Too Late

Del Amitri

What I want is everything to clear

So let the clocks be wrong

Let the evening be longer, let me drown in here'Cause what I want gets clouded by the sun  
I can't see beyond

The petty things that living here brings everyoneSo get lost with me, let the whole world wait  
Make it always be too late

Make it always be too late'Cause what I want is right before my eyes  
So set me up a drink

Pull the shutters down on all those prying satellites'Cause what I want is everything to clear  
So if you stop your watch

You might stop the morning's cruel hammer falling hereSo get lost with me, let the whole world wait  
Make it always be too late  
Make it always be too late  
Too late
