

Flick

Trey Songz

Isn't this moment, so great? Ooh yeah
Look in to your lovely face and what you doing
When we make
Whatever we making, don't wanna say love, uh
'Cause you so afraid of it
Before we do it again
I wanna know yeah
If we can make this moment last forever
Know that you are my star
I love how you play your part I wanna make a movie
We got a all-star cast
Baby hold on, let me get my flash
Move slow and move fast
Ooh do it like that
We gon' make a movie
And we sticking to the script
Bet your old man ain't hit it like this
Give me lil' kiss
We gon' make a little flick Girl I love your frame
I'm about to zoom in
Time for scenes to change
Positions, we need a new one
Flip it over, hold it steadier
Make all them sexy faces you make when you take it all
Every time you touch me, look right at this touch screen
Be the nasty girl you are when no cameras are around
You're my nasty girl you are now go on 'head and turn around 'cause now I wanna make a movie
We got a all-star cast
Baby hold on, let me get my flash
Move slow and move fast
Ooh do it like that
We gon' make a movie
And we sticking to the script
Bet your old man ain't hit it like this
Give me lil' kiss
We gon' make a little flick Beautiful debut whenever
I'm gon' I'm gon' look at you, and I
Rated the greatest as five stars
You're a natural

So glad I casted you
What a happy ending we
Let the credits roll, run it back again
Movie, we got an all-star cast
Baby hold on, let me get my flash
Move slow and move fast, ooh do it like that
We gon' make a movie
And we sticking to the script
Bet your old man ain't hit it like this
Give me lil' kiss
We gon' make a little flick
