

# Shady

## Adam Lambert

Baby, I'm on the hunt  
Baby, I got my target on you  
Trouble, that's what I want  
And I'm gonna do  
Just what I have to  
Get your ass down to the front  
Go on and roll it out, I dare you  
Sorry I'm kinda drunk  
But did you just say your game was brand new  
No, I ain't broken, but I need a fix  
That satisfaction when I, I get my kicks  
I'm up all night, I'm outta sight  
Don't turn on the light  
'Cause I'm feeling so shady lately  
Come on and take me underground  
Deep under the street  
Come on and take me, take me down  
Where freaks like us can meet  
Turn it up, turn it up, turn it up  
Turn it way up, don't stop the beat  
Come on and turn me, turn me out  
'Cause I'm feeling so shady lately  
Gonna go and get me a shot  
Gonna knock it back, forget all my blues  
Yeah, that really hits the spot  
I'm feeling pretty fierce in my dancin' shoes  
No, I ain't broken, but I need a fix  
That satisfaction when I get my kicks  
I'm up all night, I'm outta sight  
Don't turn on the light  
'Cause I'm feeling so shady lately  
Come on and take me underground  
Deep under the street  
Come on and take me, take me down  
Where freaks like us can meet  
Turn it up, turn it up, turn it up  
Turn it way up, don't stop the beat  
Come on and turn me, turn me out  
'Cause I'm feeling so shady lately  
I throw more shade than a cloudy day  
The brakes don't work, I'm just a runaway train  
Somebody come and help me out,  
All I wanna be is free  
I was tryin' to get down, now I can't get out  
I'm shady lately  
Come on and take me underground

Deep under the street  
Come on and take me, take me down  
Where freaks like us can meet  
Turn it up, turn it up, turn it up  
Turn it way up, don't stop the beat  
Come on and turn me, turn me out  
'Cause I'm feeling so shady lately Shady lately
