Kings Highway

James Bay

When the time gets right
I'm gonna pick you up
And take you far wayFrom trouble my love
Under a big old sky
Out in a field of green
There's gotta be something left for us to believeOh, I await the day
Good fortune comes our way
And we ride down the kings highway
No you can't hide out
In a six gun town
We wanna hold our heads up
But we gotta stay down
I don't wanna end up
In a room all alone
Don't wanna end up someone
That I don't even knowLover, I await the day
Good fortune comes our way
And we ride down the Kings Highway
Lover, I await the day
Good fortune comes our way
And we ride down the Kings HighwayI await the day
Good fortune comes our way
And we ride down the Kings Highway
