Baby Please Don't Go

Vince Gill

Baby please don't go, baby please don't go
Don't you leave me here feelin' lonely
Don't you leave me here feelin' low
All I know is what I know
And I know, I love you so
Baby don't go, baby please don't goI wasn't ready for love to hit me
Hit me right between the eyes
One by one I'm comin' undone
Can't you feel my temperature rise?Well I've got you where you want me
Right in the palm of your hand
I'm gonna make you feel like a woman
'Cause you make me feel like a manBaby please don't go, baby please don't go
Don't you leave me here feelin' lonely
Don't you leave me here feelin' low
All I know is what I know
And I know, I love you so
Baby don't go, baby please don't goLock your eyes right with me
Make time slow down to a crawl
Two hearts on fire with a wild desire
Climbin' these bedroom wallsMy heartbeat's gettin' stronger
Baby, won't you rock me slow?
I can't take it any longer
You got me shakin' all the way to my toesBaby please don't go, baby please don't go
Don't you leave me here feelin' lonely
Don't you leave me here feelin' low
All I know is what I know
And I know, I love you so
Baby don't go, baby please don't go
