

# Prayin' For You/Superman

[Anthony Hamilton](#)

The whole world knows that your really special  
And every time you step in a room you impress them  
All I see is a traveling blessing  
All you are is a walk of perfection They don't know how I feel about you  
They don't know what I see in you I do, I do  
Get together you never met me  
Never got the letters I wrote for you for you Spend my time just thinking about you  
All my nights just dreaming about you  
Always just praying about you  
Praying about you, praying about you  
If I had one wish, I wish this dream was true  
And if I had somewhere to go, I hope it was with you I pack my bags up anyway ready for this travel  
Fill my truck with all our stuff and kicking up some gravel  
If I had one wish, I wish this dream was true  
I spend my time on my knees just praying for you  
I spend my time on my knees just praying for you The whole world knows that your not ordinary  
Part woman rose the sweetest berries  
Woman like you so fine that its scary  
I name my daughter after you if you let me They don't know how I feel about you  
They don't know what I see in you I do, I do  
Get together you never met me  
Never got the letters I wrote for you for you Spend my time just thinking about you  
All my nights just dreaming about you  
Always just praying about you  
Praying about you, praying about you If I had one wish, I wish this dream was true  
And if I had somewhere to go, I hope it was with you  
I pack my bags up anyway ready for this travel  
Fill my truck with all our stuff and kicking up some gravel If I had one wish, I wish this dream was true  
I spend my time on my knees just praying for you  
I spend my time on my knees just praying for you  
I spend my time on my knees just praying for you  
I spend my time on my knees just praying for you  
I'll spend my time
