

# The Nile

## A Guy Called Gerald

Woke up into a dream and I was walking  
Up and down the streets of Cairo  
And then I heard a voice that said, I know you  
Its time for you to turn and face meHer hair was long, her eyes reached out and touched me  
She said, I know just what it is youre afterDeath is all around you  
So, you look for freedom  
I know where to find it  
Lets go to the riverWe sailed upon the Nile, I was enchanted  
By the beauty in her magic  
She showed me that my fears were unimportant  
Then she touched me with her visionHer skin was dark, her voice was liquid fire  
She said, I am your mate and souls desireLove is all around you  
Light is deep within you  
Life is always flowing  
Lets go down the riverHer skin was dark, her voice was liquid fire  
She said, I am your mate and souls desireLove is all around you  
Light is deep within you  
Life is always flowing  
Lets go down the riverWhy should we [Incomprehensible]  
I know it's what you feeling  
I know where you going  
Down by the river  
Come and hit it with fire  
[Incomprehensible]
