

City Dump

M. Nomized

Two sides of half-breed
and we both begin to bleed And I don't know if folks go to follow thee
and make'em me It's heartbeat try and mock me
And it looks O.K. to me My Saturday never Sunday
and a moat a fall of thee Lay down pent up thank god
I got you wanna see They made it out like a child
of the modern day anatomy It's dirt ten and monologue
and it make it's wall deplete Like Saturday in the night of day
and this is all I made Black dog and distant crawlin'
on a watch you for the reason They made it out like the child on the mind more look and find you'll see it It's a
hell indeed and a seventy
and it looks O.K. to me My Saturday never Sunday
And moat a bite a lee Two sides of half-breed
Now it's just me to bleed The count of four forty-five
that leaves now five chop the speed It's a dirty war and mind law
and makes it five to fourteen It's a heartbeat never Sunday
and it looks O.K. to me
