Save A Little Part

Wave

You slipped through my fingers
Like water washing over sand
I'm stuck here in this desert
And I'm wondering where I standJust don't forget about me
I'm asking youChorus
Save a little part of you and me
That jealousy could have been mistaken
Keep it burning in your memory
That mystery, that piece of yesterdayI'm chasing this feeling
It haunts me when I sleep at night
Still searching for the meaning
It's not laid out in back and whiteJust don't forget about me
I'm asking youChorusSit around wasting time
Thinking about the rest of our lives
Back when you were mine
All mineChorus
