

The Lights Go Down

Electric Light Orchestra

The lights go downOne day
I gotta get out of here
I gotta make everything clear
I gotta see you, oh, ohI know
The way that I feel is wrong, so wrong
But I gotta carry on
When you ain't aroundI believe things are going wrong
And the night goes on and on
All your dreams have flown away
And the sun won't shine todayThe lights go down
(I want you, baby)
The lights go down
(I need you, baby)
The lights go down
And there's no one aroundI know
You're waiting so close to me
But how will you ever see
As time rolls away, away?Lonely
But tryin' to be so proud
And just as I turn around
The lights go downI believe things are going wrong
And the night goes on and on
All your dreams have flown away
And the sun won't shine todayThe lights go down
(I want you, baby)
The lights go down
(I need you, baby)
The lights go down
And there's no one aroundThe lights go down
(I want you, baby)
The lights go down
(I need you, baby)
The lights go down
And there's no one aroundThe lights go down
(I want you, baby)
The lights go down
(I need you, baby)
The lights go down

(I want you, baby)

Songwriters

Lynne, Jeff
