

# All the Right Friends (Athens Demo)

R.E.M.

I know you say maybe some day  
I need never be alone  
I know I say it's the right way  
But you'll never be the one I've been walking alone now  
For a long long, long time  
I don't wanna hang out now  
With the friends that just stand mine How did you party?  
You've been looking but your search will never end  
You've been hangin' with the wrong crowd  
You've got all the right friends I've been walking alone now  
For a long long, long time  
I don't wanna hang out now  
With the friends that just stand mine and said I don't wanna be with you anymore  
I just don't want you anymore  
I don't wanna be with you anymore  
I just don't want you anymore I don't wanna be with you anymore  
I just don't want you anymore  
I don't wanna be with you anymore  
I just don't want you anymore
