

Purr

Sonic Youth

I love you baby 'cause you're back in time
I love you today
Your eyes are flashin' like a magic sign
The sun comes out to play I learned it all from you girl
I got it all from you
How to howl the moon yea
An' how to scratch your dog
I do it every day
Come back again tomorrow
You chased it all away A dreamin' beauty sleepin' day and night
The sun around you
I love you baby, yea, you're superfine
Comin' down too A purrin' whirrin' fuzzy lights of day
A switchin' sunlight
I chase you, kitten catch you every time
Funny how it flies I learned it all from you girl
I got it all from you
How to howl the moon yea
An' how to scratch your dog
I do it every day
Come back again tomorrow
You chase the life away I hear you purrin' through a super soul
A puff in to it
A puss in leather, yea, a prince in gold
The leather tale away I learned it all from you girl
I got it all from you
How to howl the moon, yea
An' how to scratch your dog
I do it every day
Come back again tomorrow
You chase the life away
