Genius Girl

Keith Sweat

Jack of all trades
Master of all
Beautiful is what you are
But you got brains, baby-girl, you're smart
Not just the fact, girl, we think like
Not just the freak and the bear
But you can do the job and try what you can't
Girl, you know my mind simultaneously
You should be rewarded for everything you do
Girl, you're amazin' to me
You're my genius girl
You're my genius girl
Girl, you're my genius girl
I'm so glad that I found you
Girl, I love bein' around you
You're my genius girl
You're my genius girl
Girl, you're my genius girl, my genius girl
Girl, you're my genius girl
Stormin' out there, we're in the bed
Don't have to ask, you just know what to do
So intelligent, sexy and wonderful
You took time out to study me, you know my anatomy
And, oh, yeah, let's not forget
You're upon me shell and you can burn, girl
(You can cook as good as you look)
And I'm iron to the magnet
I could greet you my head [Incomprehensible]
You're my genius girl
You're my genius girl
Girl, you're my genius girl
Yes, you are, yes, you are
So glad, yeah

You're my genius girl
You're my genius girl
Girl, you're my genius girl, my genius girl
Girl, you're my genius girl
(You're the definition of what)

You are the definition of what every woman should be like, baby
(You're more precious than diamonds and pearl)
You're more precious than diamonds and pearls, yeah
(You were created from the wind up above)
You were created from up above, baby
Every day, I have a reason to celebrate
Girl, I got you in my life
You're my genius girl
You're my genius girl
Girl, you're my genius girl
She's perfect in every way
What more can I say?
You're my genius girl
You're my genius girl
Girl, you're my genius girl, my genius girl
Girl, you're my genius girl
You're jack of all trades
Mantle of the morn, yeah
Such a genius, baby
Guy wouldn't takes the job
Has made so gravy, gravy
You're my genius girl
You're my genius girl
Girl, you're my genius girl, my genius girl
Girl, you're my genius girl
Oh, baby, baby, oh, baby, baby
Oh, yeah, yeah, oh, baby
Oh, yeah, oh yeah, oh, yeah, girl
I love you, I want you
