

Bright Lights

Carbon Leaf

How was I to know? How was I to feel?
You're leaving all the lights on, you want me to reveal
Everything that I hide from the bright light's glow
Letting everything go to live beyond the shadow of a doubt I'm riding to your house there's nothing you can do
I'll never be without a fading afternoon
Maybe all we need is something new
Maybe all we need is nothing we can lose So I'm letting everything go, letting everything go
A step inside the lights beyond the shadow of our doubt
And never find our way out, we'll never find our way out
We'll never find our way out of here again Long gone days are never so quick to fade
It took falling away to fall on the same page
Now all we see are bright lights that show
Everything we need and all there is to know All there is to know about letting everything go, letting everything
go
A step inside the lights beyond the shadow of our doubt
And never find our way out, we'll never find our way out
We'll never find our way out of here again Letting everything go, letting everything go
A step inside the lights beyond the shadow of our doubt
And never find our way out, we'll never find our way out
We'll never find our way out of here again
