

Still Livin'

Freddie Gibbs

Uh,

What you know, boy? (x14)

Yea,

I'm still livin' like a dope dealer

And these streets ain't got no mercy on a broke nigga

Gangsta Island, so all my niggas gang bangers

Come get your cook up,

I came up with the cane slangers

And I grew up

Next door to the dope man

Cherry red CL Coupe, clean as a coke can

DEA be doin' surveillance they in the dope van

Nowadays they pay Walter Payton, that's 34 bands

Yea, I'm still livin' like a jack boy,

Got your family wrapped up in tape, I'm bout the sack, boy

And I heard it ain't where you're from, it's where you're at boy

Make sure every place that I'm at, next to the strap, boy

Killin' em,

Shit from these verses, put hoes in hearses and these fuckers need some product to purchase

Some at their service

Used to sell my L on the Nextel, play for those chirpers

And no doubt we don't check out CTE and they close the curtain and I'm,[Hook]

[Still, I'm still livin' like a dope dealer,

Finger on the trigger, I ain't takin' shit from no nigga

Still, I'm still livin like a dope boy,

Wrappin' up the pack of drugs, traffic what you know, boy (and I'm)] (x2)Still cashin' that dope check

Guns and contraband on the deck,

Streets said that I'm marked for death

I might be the one to get smoked next

Might fuck around, just might beat it down

That ass round and that throat wet

You a pussy boy, straight cold Tec's,

Got a hundred rounds, bitch hold that

Bitch hold that, bitch hold up,

Bitch, know what?, that a 4 bust

Bought a 14 of that straight hard

Served e'ry geeker that rolled up

That straight trap with no raps with me

OT but they pack with me

Moonwalkin' on dope, bitch, I know real niggas on Jackson Street
25th, 49th, Cali kush, overnight,
Come back to my store dawg, but make sure you got your order right
And my shop might close up so make sure you put your orders in
Just another day, another dollar, ducking court again
Wrappin up the pack of drugs, traffic what you know
Winter summer spring fall, nigga shovel snow
And if I could I'd dig a tunnel straight to Mexico,
Pass me my strap I think the police at my door because I'm[Hook x2]Still...
