Love Affair

Pepper

If you got a problem with your love affair
If you got a problem with your love affair
Cry to someone who cares but don't cry to meHours are spent, then it history and my girl loves her insecurities
I can't work a nine to five and you don't seem to realize
What's on my resume I grab the microphone and sway this way
But, all you want is to complain and I'm just trying to explainIf you've got a problem with your love affair
If you've got a problem with your love affair
Cry to someone who cares but don't cry to meI got the bottle empty, I'm holding my last twenty
Down at the corner discount liquor store
It's a quick fix recipe and the basics are not basic for me
The more it goes, it just seems the same as I'm still trying to explainIf you got a problem with your love affair
If you got a problem with your love affair
Cry to someone who cares, but don't cry to me, don't cryIf you got a problem with your love affair
If you got a problem with your love affair
Cry to someone who cares but don't cry to me, don't cryIf you got a problem with your love affair
If you got a problem with your love affair
