

Another Man

Cloud Nothings

I'll be over in, gonna lean them into me
I guess he'll turned you around
But he's too close to me
1 2 3 he let go of me
I said leave me alone
1 2 3 he let go of me
I said leave me alone I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down I'll be over in, gonna lean them into me
I guess he'll turned you around
But he's too close to me
1 2 3 he let go of me
I said leave me alone
1 2 3 he let go of me
I said leave me alone I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
I will find another man to chase you down
