Can't Stop Now

Babyface

Now I got you all alone, nobody else is home
Don't you like it
When I kiss it a thousand times, all up and down your thighs
And all around it
Take off your clothes and come to me
I wanna make your body feel like ecstasy
Ooh baby baby
Ooh ooh baby baby, please love me
Girl we can't stop now, we done gone too far
And I don't know how, 'cause you know it'd be too hard
If we stopped it right now and it didn't go down
If the body wants to do it, just do it, oh
Girl we can't stop now, we done gone too far
So baby don't fight it 'cause you know I get excited
Just don't make me stop now, it's gotta go down
If the body wants to do it, just do it, you can't stop now
Now you got me on overload, think I might just explode
I can't hide it and uh
And I know you wanted to, I can feel it inside of you
Can't deny it, no
So bring it close, closer to me
I wanna feel your body, feel your ecstasy
And ooh baby baby
Ooh baby, baby, please, love, me, yeah

Girl we can't stop now, we done gone too far
And I don't know how, 'cause you know it'd be too hard
If we stopped it right now and it didn't go down
If the body wants to do it, just do it, oh
Girl we can't stop now, we done gone too far
So baby don't fight it, 'cause you know I get excited
Just don't make me stop now, it's gotta go down
If the body wants to do it, just do it, 'cause you can't stop now
Baby I can, I can go fast
Slower, give you, all your heart desires
Baby I will, I'll make it last
Show you, I will, I'll set your world on fire, baby
Girl we can't stop now, we done gone too far
And I don't know how, 'cause you know it'd be too hard

If we stopped it right now and it didn't go down
If the body wants to do it, just do it, ooh
Girl we can't stop now, we done gone too far
So baby don't fight it, 'cause you know I get excited
Just don't make me stop now, it's gotta go down
If the body wants to do it, just do it, you can't stop now
Baby, baby, baby, baby, baby, baby
You can't stop now, you can't stop now, you can't stop now
