

# Secret Garden

Neil H

So you hustle 'til the pain grows  
Fight until the needle call always when the needle calls  
So you hustle 'til the pain grows to strong  
So you hustle 'til the pain grows  
Fight until the needle call always when the needle calls  
So you suffer 'til the pain goes to long  
Left the city just to save myself  
Headed west, looking for that ocean breeze  
It's down in Santa Monica, where the wind blows strong  
And the saltwater washes you clean  
Walking through the dollar store  
Isle five, head down, daydream looking up and there you are  
Hey girl what you are you doing out here  
It's been a long time now  
Go for coffee then we talk, talk reminisce  
Talk, talk on and on  
All about the things we missed  
But always just behind the smile  
You got the same sad eyes  
In your secret garden there is no one  
Who gets the key to your heart  
Your poison flowers survived for hours  
But now they're tearing you up  
And we all change, we all decay  
When our hearts are broken down  
Take a weekend take a week  
  
Falling fast I'm falling deep here we go  
It's just like it was before  
No matter what I do or what I say  
You'll never let me in  
You've been working out in Hollywood  
Easy money, fucked up job back on the street  
We both know it's no good  
But every night you're heading there  
You've got the same sad eyes  
In your secret garden there is no one  
Who gets the key to your heart  
Your poison flowers survived for hours

But now they're tearing you up  
And we all change, we all decay  
When our hearts are broken  
And finding ways to face the day  
When our hearts are broken down  
So cold so sickly twisted beautiful  
And time will not be kind  
Your cancer grows so deep inside of you  
And I cannot rewind
