

# Brandon

## JPNSGRLS

Brandon wants to cut her hair but she's scared

She really likes the girl in the black. They cut themselves on blades of grass. She Won't call you names you  
won't have to be afraid honey She won't call you names you won't have to be afraid at all

She's such an outdoorsman she kissed her out of boredom and left her outta sorts when she took it with a grain  
of salt.'Cause Brandon really understands just what it means to be a man

Oh I think she really understands just what it means to be a man She Won't call you names you won't have to be  
afraid honey She won't call you names you won't have to be afraid at all

So find the one you love and tell them that you do and try to be yourself I know that that's confusing. When  
everybody picks a side... like divorce

And I finally saw the blue in your eyes... At the morgue.
