

Sucker Punch

Haji's Kitchen

lay in the summer fields
i feel the warmth
i feel the waiting
lashing now, back and forth
i've seen the sun
i've seen the shaking (i've seen the shaking)

you calculate your hatred,
master of the complicated
you fucked my head up major,
left me hanging cold and naked

i've been asleep for years,
the gentle burning
my inner savior
pacing now, back and forth,
the "real life" one
you said you were mature (you said you were mature)

you calculate your hatred,
master of the complicated
you fucked my head up major,
left me hanging cold and naked(x2)

lay in the summer fields
i feel the warmth
i feel the waiting
lashing now, back and forth
i've seen the sun
i've seen the shaking (i've seen the shaking)

you calculate your hatred,
master of the complicated
you fucked my head up major,
left me hanging cold and naked(x2)
