

In Due Time

Submersed

Speak your mind, I just closed
Off my insides following, taking me
Where you're leading I've come to see this is me
What I need is in front of me
Never to to be free
Free from what you bring Why do I follow
Letting you in front of me
To steal tomorrow, morrow, yeah Free my mind in due time
I'll break this from me
Fear inside I can't rewind
From the ending I've come to see this is me
What I need is in front of me
Never to to be free
Free from what you bring Why do I follow
Letting you in front of me
To steal tomorrow Why should I follow
Letting you overcome me
To steal tomorrow Never to be free
Never to be free
Never to be me Why do I follow
Letting you in front of me
To steal tomorrow Why should I follow
Letting you overcome me
To steal tomorrow, morrow, morrow Let me go
(Never wanna be this, never wanna be this)
Let me go
(Never wanna be this, never wanna be this) Let me go
(Never gonna be this, never gonna be this)
Let me go
(Never gonna be this, never gonna be this)
