Lefty

Unearth

Rolled for a chance
Taking back
Earned my wings
Solid groundNever fall
Fueled by strength
Scale the walls
Fearless fire, focused mindClear a way
Synchronize your soul and mind
Rising high
Feel the lifeGrabbing on
Vision clears
A great escape
Claims our sensesStride or fall
Cleanse to grow
Fight for all
Brick foundationPlay your own
Skill to gain
Own the strain
Lease your future holdFuture hold
Undying will
Silence allStrife the odds
Overcome
Brave return
Crush rivalryBreathe in thought
See an end
Tooth and nail
Seize, maintain controlStride or fall
Cleanse to grow
Fight for all
Brick foundationPlay your own
Skill to gain
Own the strain
Lease your future holdI never will kneel
I won't let go
Never chained or slowed
By a lack of drive or strengthFilled in soul
An everlasting flame I bring
Clash, combine
Defending my integrityShine

Foresee
A child born
Who thirsts to growForever soar, sees
Perceptive judge of barren truth
A guided hand
Hold a vital force of life's desireFlare the sky
Essential find
Fistic vein
The fuse that bindsFlare the sky
Essential find
Fistic vein
The fuse that bindsSear the fuse
Fistic vein binds
A nature find
Brilliant sky I findNo other way
To build
FoundationForever soar, sees
Perceptive judge of barren truth
A guided hand
Hold a vital force of life's desireTime, time is stalking you
Time is stalking you
The time is stalking you
Time is stalking you
