

Save Your Love

Kiss

You were my woman and I was your man
You were good lookin'
You know I was your biggest fan You tried to teach me things I already knew
When you couldn't reach me
Girl, I think you knew that we were through
Baby, it's over (Save your love, save it, save it)
(Save your love, save it, save it)
Save your love, I don't want it, save it for someone else
(Save your love)
(Save it, save it)
Save your love, I don't need it, put it back on the shelf
(Save your love for)
For somebody else You said you love me, you may have been right
But hangin' above me
Girl, you know that we would always fight You tried to change me and mess up my mind
Now, don't rearrange me
And girl, you know that's why you're left behind
It's over now (Save your love, save it, save it)
(Save your love, save it, save it)
Save your love, I don't want it, save it for someone else
(Save your love)
(Save it, save it)
Save your love, I don't need it, put it back on the shelf
(Save your love for)
For somebody else Girl, you know it's over
We had some good times
But now they're gone, so long (Save your love, save it, save it)
(Save your love, save it, save it)
Save your love, I don't want it, save it for someone else
(Save your love)
(Save it, save it)
Save your love, I don't need it, put it back on the shelf
(Save your love for)
For somebody else Save your love, I don't want it, save it for someone else
(Save your love)
(Save it, save it)
Save your love, I don't need it, girl, I don't want it
(Save your love)
Save your love Save your love, I don't want it, save it for someone else

(Save your love)
(Save it, save it)
Save your love, I don't need it, girl, I don't want it
(Save your love)
Save your love Save your love, I don't want it, save it for someone else
(Save your love)
(Save it, save it)
Save your love, I don't need it, girl, I don't want it
(Save your love)
