

# Rain

## Heather Headley

Remember how you used to see me  
That day we met the butterflies  
Let me know I wasn't dreaming  
Pretending not to feel me  
While you walking down my street  
Playing hard to get  
I know you thought I wouldn't work that hard  
You didn't think I would let down my guard  
Remember how you didn't believe me  
When I told you that I thought you were my destiny  
You're love is like rain  
Come a little closer let me explain  
You're love is like rain  
Shower your love all over me  
You're love is like rain  
Lovin' so good hafi' shout your name  
You're love is like rain  
Who else is gonna make you feel this way  
I'm not tryin' to run your life  
All I need is you to set me free  
I know your boys think you're crazy  
'Cause all you wanna' do  
Is spend your time with me

It's never too much  
Drown me in your love  
I don't need to breathe  
I'm like a flower I need you boy  
To come water me  
You're love is like rain  
Come a little closer let me explain  
You're love is like rain  
Shower your love all over me  
You're love is like rain  
Lovin' so good hafi shout your name  
You're love is like rain  
Who else is gonna make you feel this way  
You're love is like rain  
Come a little closer let me explain

You're love is like rain  
Shower your love all over me  
You're love is like rain  
Lovin' so good hafi' shout your name  
You're love is like rain
