

Girl Like You

David Gray

Shaking off the morning
No I never met a girl like you
Trying to see the land as it lies
Is like driving with the sun in my eyes
Not a thought in my head what to do
'Cause I never met a girl like you
Clear in your head when you're setting those sights
Fear in your bed when the loneliness bites
Try to get rid we'll be hitting those heights I'm working on it
I'm working on it
I'm working on it
I'm working on it
I'm working on it
Yeah I'm working on it Someone left the door ajar
Now I've no idea who you are
Not a thought in my head what to do
'Cause I never met a girl like you Clear in your head when you're setting those sights
Fear in your bed when the loneliness bites
Try to get rid we'll be hitting those heights I'm working on it
I'm working on it
I'm working on it
I'm working on it
I'm working on it
Yeah working on it
I'm working on it
Yeah working on it Well I'm trying to fit one in the other
But seven into five don't go
I'm trying to get along with my brother
But my brother is so hard to know
I don't want no soul to suffer
But it's not an easy line to toe
So I'm working on it
Yeah working on it Don't know what you are to me
Don't know we were one
Don't know what you are to me
Don't know we were one Don't know what you are to me
Don't know were I want to be
Don't know what you are to me
Don't know were I want to be
