What Love Can Do (Manox Remix)

Max K.

What love can do, to you

What love can do, love can do

Call me, when you need me
You know it kills me
You make me push my feelings away
Say you love me, I believe it
Because I love the way you lie

Stop playing, hard to get girl
Because I'm not that kind of guy
You abuse me, only used me
But I'm keep coming back to you

You'll never know, what love can do
If you got a soul, you've got to believe
Even let it go, the light in you
Even let it grow, it's what you feel

What love can do...
