

# What Love Can Do (Manox Remix)

**Max K.**

What love can do, to you

What love can do, love can do

Call me, when you need me

You know it kills me

You make me push my feelings away

Say you love me, I believe it

Because I love the way you lie

Stop playing, hard to get girl

Because I'm not that kind of guy

You abuse me, only used me

But I'm keep coming back to you

You'll never know, what love can do

If you got a soul, you've got to believe

Even let it go, the light in you

Even let it grow, it's what you feel

What love can do...
