The Distance

Novice

You watch me from a distance
you close your eyes you turn your back on me
you seem to be the only one with your life togetherwhy don't you come on over
and see whats going on (still don't know anything)
just take the time (to see what we're all about)
so much more than you can seedon't tell me what's good for me
don't say that i'm wasting my timei hear you in the distance
does it feel good to say the things you say (about me)
and you are still the only one who thinks you're something specialwhy don't you come on over
and see whats going on (still don't know anything)
just take the time (to see what we're all about)
so much more than you can seedon't tell me what's good for me
don't say that i'm wasting my timecause you don't know anything
anything at alldon't tell me what's good for me
don't say that i'm wasting my time
