

# Start Of My Heart

## Joan as Police Woman

You changed me  
You chained me down and taught me  
The damage I've done  
(Damage I've done)  
Can show me the way to my heart? Sing, sing out my love  
'Cause I've been here before  
And silence don't get you a thing  
(No, it don't get you a thing)  
I learned this on the way to my heart It was with you Rivington deep  
September we took the long way  
And your hand led me home like Orion  
You woke my heart with your northern lights  
With your song Yes you, you slay me origami dog  
I wonder if you'll do it again  
(Please do it again)  
I'll thank you from the deep of my heart  
I'll thank you for the start of my heart
