

# Focus

## 10 Years

Digging deeper in my mind  
Can't get you out of my head  
There's no way to describe  
Just how you make me feelI don't know, is it love?  
I have lost control  
Even when I'm gone  
I can't get awayI can't focus when I'm near you  
Do you notice me at all?  
I can't focus when I hear you  
Do you notice that I can't focus?Like the moth flies to the light  
Captured at first sight  
I can't deny I'm taken by  
The beauty in your eyesI don't know, is it love?  
I have lost control  
Even when I'm gone  
I can't get awayI can't focus when I'm near you  
Do you notice me at all?  
I can't focus when I hear you  
Do you notice that I can't focus?I can't focus when I'm near you  
Do you notice me at all?  
I can't focus when I hear you  
Do you notice, do you notice?I can't focus when I'm near you  
Do you notice me at all?  
I can't focus when I hear you  
Do you notice that I can't focus?
