Ryan Malcolm

Jump in the car I got a feeling
Pretty soon things might get heated
We're not safe here anymoreThere's a place close, we can hide out
Where the satellites won't find us
Just get in and close the doorBaby, our love is threatened
For it to survive, just listenI don't wanna learn to breathe again
I don't wanna start another life
You're were the closest thingTo heaven I've ever known
In a world of once, you were like a door
Baby, you're my only hopeIf tomorrow we don't wake up
With this halo right above us
It'd be the saddest day of allWe got love that's epic
Maybe that's why they get jealous
Of the most famous love of allWhat we've got here is precious
So let's keep on fighting, yeahI don't wanna learn to breathe again
I don't wanna start another life
You're were the closest thingTo heaven I've ever known, yeah
In a world of once, you were like a door
Baby, you're my only hope, hopeYeah, baby, of our love lifeOh, I don't wanna learn to breathe again
I don't wanna start another life
You're were the closest thing
To heaven I've ever known, yeahIn a world of once, you were like a door
Baby, you're my only hope
Oh, baby, you're my only hope
