Metal Is Forever

Primal Fear

Metal is forever, forever, foreverFree choices always had the chance
To play the music you like true and faithful
You support this sound and rhythm
You back up its future from deep in your heartFaster beats are pounding
While the fans are shoutingMetal is forever, forever, forever
In every single matter
Metal is forever, forever, forever
Nations come togetherExcited, when you go to see a show
Your feelings arise
Committed, you became a fan forever
Knowing the words you sing all the tunesFaster beats are pounding
Glowing tubes high soundingMetal is forever, forever, forever
In every single matter
Metal is forever, forever, forever
Nations come togetherFaster beats are pounding
Screaming voices howlingMetal is forever, forever, forever
In every single matter
Metal is forever, forever, forever
Nations come togetherMetal is forever, forever, forever
In every single matter
Metal is forever, forever, forever
Nations come together
