

# B Down

## ABiCA

Today you woke up with the same damn dream  
You got some great ideas but you got no self esteem  
And you try but you're stuck and no one gives a fuck but you can't give up  
Trip and fall cuz no one can be perfect  
Earn and learn it and then you will deserve it  
I'm so fucking sick of these people being pussies  
I'm so fucking sick of these people trying to push me  
Chorus  
Fuck em all  
That's what I gotta say  
Watch em fall  
Till they all bleed away  
Do what you gotta do get the fuck up  
Cuz these fucking punks need to know when to shut the fuck up  
If you wanna be down, knock a hater to the ground  
Cuz these mother fuckers here are always around  
Tac and hash and you know where we stand  
At the very top and you know it man I aint one to talk shit  
But if you bring it up blow it up  
Leave it alone or ima show you up  
This is real I ain't fucking around  
I represent all our fans who say they'll always be down  
I gotta short fuse and you're holding a match  
I fucking dare you to set it off just let it off I'll show you were I'm at  
ABiCA this aint skin dip  
Lemme prove it just put the CD on repeat  
Fuck em all  
That's what I gotta say  
Watch em fall  
Till they all bleed away  
Do what you gotta do get the fuck up  
Cuz these fucking punks need to know when to shut the fuck up  
If you wanna be down, knock a hater to the ground  
Cuz these mother fuckers here are always around  
Tac and hash and you know where we stand  
At the very top and you know it man
