

River

Emeli Sande

Emeli Sande © (River) If you're looking for the big adventure

and gold is all that's on your mind

If all you want's someone to take your picture

then I won't waste your time.

See, maybe I'm too quiet for you

you probably never noticed me

but if you're too big to follow rivers

how you ever gonna find the sea? Chorus:

so follow me i'll be your river, river

I'll do the running for you

follow me i'll be your river, river

i'll move the mountains for you

follow me, i'll be your river, river

i'm here to keep you floating

follow me

i'll be your river river. River, river, yeah If all you want are answers to your questions

And you can't seem to find no love for free

If you're looking for the right direction

Then darling, look for me See, I can make the load much lighter

I just need you to confide in me

but if you're too proud to follow rivers

how you ever gonna find the sea? Chorus:

so follow me, i'll be your river, river

I'll do the running for you

follow me, i'll be your river, river

i'll move the mountains for you

follow me. i'll be your river, river

I'm here to keep you floating

follow me i'll be your river, river. River, river, yeah Wherever you're standing, I will be by your side

through the good, through the bad, i'll never be hard to find

so wherever you're standing I will be by your side

through the good, through the bad, i'll never be hard to find Chorus:

so follow me, i'll be your river, river

I'll do the running for you

follow me, i'll be your river, river

i'll move the mountains for you

follow me. I'll be your river, river

I'm here to keep you floating

follow me, I'll be your river, river. River, river, yeah Wherever you're standing, I will be by your side

Through the good, through the bad, I'll never be hard to find
