Romantic Type

The Pigeon Detectives

I can see you standing there like you know what to do
You all think you know me but you haven?t got a clue
Well I can see you looking but you?re looking at the floor
No I don?t think I really care ?cause you?ve paid at the door

And it?s not that I?m not the romantic type
It?s just that I like what I choose to like
And if you?d only take the time to look my way
If you would only take the time to see well I might let you stay

Well I know that you want something and you want it from me
Everyone says we?re the same but I just can not see
And I know what you?re asking for ?cause I?ve just read the tie
Would paying once or maybe twice be really such a crime?

And it?s not that I?m not the romantic type
It?s just that I like what I choose to like
And if you?d only take the time to look my way
If you would only take the time to see well I might let you stay

It?s not that I?m not the romantic type
It?s just that I like what I choose to like
And it?s not that I?m not the romantic type
It?s just that I like what I choose to like
