

# Nothing Left (feat. Will Heard)

Kygo

Tell me that you need me  
To help you find a way  
To all of this madness  
Can now be your light of day Please, won't you believe me  
Even if you don't agree  
Know that i am trying  
To help us all break free There be nothing left for no one, no  
There be nothing left for no one  
If you don't stop  
Living your life  
Turn to one side, with a blind eye  
There be nothing left for no one (for no one) I'm saying that i'm sorry  
For things i've said and done  
But i don't want to be here  
If i'm, i'm looking down a gun There be nothing left for no one, no  
There be nothing left for no one  
If you don't stop  
Living your life  
Turn to one side, with a blind eye  
There be nothing left for no one (for no one)  
(Left for no one, left for no one, left for no one)  
There be nothing left no one (for no one)
