Call Me Daddy

Lemar

Reminiscing about the day she first told me you were
Got to ring you to I lie
It would have been a great November
It was like our love had been reborn
Can't explain the happiness in her voice that day
It made everything make sense
Even though I never knew your name
Now on every night I dry my weeping eyes
Don't think time could ever heal this pain, oh
Sometimes I feel like I'm the one to blame
I can't believe
I can't believe you've gone away
Life will never be the same
And I'll meet you on the other side
And if I see you, will you call me daddy?
I can't believe you've gone away
Wish that I could see your face
And I'll meet you on the other side
And if I see you, will you call me daddy?
Every single day was filled with oh so many choices
Wish it was a boy or girl
Someone who would change the world
Used to say that you would grow to be my baby boo
She already had it all planned
You would be a perfect match
Raised with a loving hand
I will never know you or hold you within these arms
Sometimes she thinks that she's the one to blame, no
Can someone tell me how to stop her pain?
I can't believe you've gone away
Life will never be the same
And I'll meet you on the other side
And if I see you, will you call me daddy?
I can't believe you've gone away
Wish that I could see your face
And I'll meet you on the other side
And if I see you, will you call me daddy?
If you were here right now life would not be complicated
I'd give my heart and soul just to see you grow

And your mama she would smile again
All the sleepless nights would end
Maybe we could laugh again
Lord knows I'm missing you
I can't believe you've gone away
Life will never be the same
And I'll meet you on the other side
And if I see you, will you call me daddy?
I can't believe you've gone away
Wish that I could see your face
And I'll meet you on the other side
And if I see you, will you call me daddy?
Call me daddy
Call me daddy
