Beautiful Night

Elisa

(Music and lyrics by Elisa Toffoli)A beautiful night's a beautiful night
Its colorful soul's embracing my song
And a cello's playing in my head
Just for me
And a new desire is blowing sounds
In my ear
Shall I go for a smile? Shall I or
Shall I keep it to myself?
But I would share it with you
If you could understand...A beautiful night's a beautiful night
My happiness came like sand in the wind
Oh I think I saw a little poem
Falling off a star... Oh, I think I saw it
Choosing your eyes as a place to spend time...
Shall I go for a smile? Shall I or
Shall I keep this to myself?
But I would share it with you,
If you could understand...Can I... can I step into your world?
Can I... can I step into your world?
Can I... can I step into your world?A cello's playing in my head
Just for me
And a new desire is blowing sounds
In my ear
And I think I saw a little poem
Falling off a star... And I think I saw it
Choosing your eyes as a place to spend time...
Shall I go for a smile? Shall I or
Shall I keep it to myself?
But I would share it with you,
If you could understand...
