

Beautiful Night

Elisa

(Music and lyrics by Elisa Toffoli) A beautiful night's a beautiful night

Its colorful soul's embracing my song

And a cello's playing in my head

Just for me

And a new desire is blowing sounds

In my ear

Shall I go for a smile? Shall I or

Shall I keep it to myself?

But I would share it with you

If you could understand... A beautiful night's a beautiful night

My happiness came like sand in the wind

Oh I think I saw a little poem

Falling off a star... Oh, I think I saw it

Choosing your eyes as a place to spend time...

Shall I go for a smile? Shall I or

Shall I keep this to myself?

But I would share it with you,

If you could understand... Can I... can I step into your world?

Can I... can I step into your world?

Can I... can I step into your world? A cello's playing in my head

Just for me

And a new desire is blowing sounds

In my ear

And I think I saw a little poem

Falling off a star... And I think I saw it

Choosing your eyes as a place to spend time...

Shall I go for a smile? Shall I or

Shall I keep it to myself?

But I would share it with you,

If you could understand...
