

Little Somethin'

Kt Mulholland

Just a little something
To keep this party going
I wanna get you off and on and on and over and over
Hey you with the lips
Come give me a kiss
I donâ€™t wanna be loved
I just wanna be missed

Just a little warning
I get a little horny
First thing in the morning, moaning
I need a little something
Hey you with the smile
Come sit for a while
I donâ€™t wanna be right
I just wanna be now

So can I get a little something?
Just a little somethingâ€¦
Baby, oh I need a little something
Can I get a little something?
Just a little somethingâ€¦
Sugar, oh I need a little something
So can I get a little something?
Just a little somethingâ€¦
Baby, oh I need a little something
Can I get a little something?
Just a little somethingâ€¦
Sugar, oh I need a little something
Oh I need a little something
Oh I need a little somethingâ€¦

Just a little something
To set your mind in motion
I wanna lead you on and on and up and down and nowhere
Hey you with the tongue
Come, letâ€™s have some fun
I donâ€™t wanna be bad

I just wanna be done

So can I get a little something?
Just a little somethingâ€¦
Baby, oh I need a little something
Can I get a little something?
Just a little somethingâ€¦
Sugar, oh I need a little something
So can I get a little something?
Just a little somethingâ€¦
Baby, oh I need a little something
Can I get a little something?
Just a little somethingâ€¦
Sugar, oh I need a little something
Oh I need a little something
Oh I need a little somethingâ€¦

So can I get a little something?
Just a little somethingâ€¦
Baby, oh I need a little something
Can I get a little something?
Just a little somethingâ€¦
Sugar, oh I need a little something
So can I get a little something?
Just a little somethingâ€¦
Baby, oh I need a little something
Can I get a little something?
Just a little somethingâ€¦
Sugar, oh I need a little something
Oh I need a little something
Oh I need a little somethingâ€¦
