

# Soldier

## Stephen Stills

Soldier, soldier, soldier  
Stucked in an hospital ward  
Living in a wheelchair  
Do you remember the war? It's not over  
It'll never be over for you  
It's not over  
Till they quit playing war with you  
Soldier, soldier Do you remember who found you  
The helicopter crew  
Out of the Au Shan Valley  
What could they do It's not over  
It'll never be over for you  
It's not over  
Till they quit playing war with you  
Soldier, soldier Was anybody with you  
When you felt your body die  
Knowing that you live on  
The shell of a man to hide It's not over  
It'll never be over for you  
It's not over  
Till they quit playing God with you  
Soldier, soldier  
Soldier, soldier
