

Why Wait?

Rufio

----1985 Version
growing old, and living for
the moment, you're
searching for something
cannot find, the truth inside
will leave you all, that you're living for
thinking love is gone, its gone
why wait for you to come home
why search for answers to nothing
dont come back crying for help
why wait for life to come
growing old, and living for
the moment, you're
searching for something
cannot find, the truth inside
will leave you all, that you're living for
thinking love is gone, its gone
why wait for you to come home
why search for answers to nothing
dont come back crying for help
why wait for life to come
think back, shocking, believe, its me
why wait for you to come home
why search for answers to nothing
dont come back crying for help
why wait for life to come-----
The Version for the rufio EP
Growing old and living for the moment
You're searching for something you cannot find
The truth inside will reveal all that we're living for
Thinking all is gone
It's gone
Why wait for you to come home?
Why search for answers to nothing?
Don't come back crying for help
Why wait for life to come?
Think back
Shocking
Believe it's me
