## Let It Go

## Cavo

Wait it out till the light Take a breathe, say good night But don't ever go awayWait around to find the time Only you can take what's mine But don't ever go awayI'll be waiting', I need to let it goFade it out into the light All these years we never get it right I need to let it goNo more reasons to defy That I believed that you were mine I need to let it goA chance to change or stay the same One night with out the blame That don't ever go awayOnly you can make it right To walk away with out a fight But don't ever go awayI'll be waiting, I need to let it goFade it out into the light All these years we never get it right I need to let it goNo more reasons to defy That I believed that you were mine I need to let it go I wish you'd let me go
