Ready for You

Harries '89

Go on, make me feel it's useless
When in fact it's you that need to have me near
So now, keep me at safe distance
And with a little persistence
I'll make it crystal clearThat I'll be around only if you want me to
Be there by your side, I'm ready for you
So don't be afraid
'Cause I know what you're going through
So when you think it's time, I'm ready for youNow you seem to be content with
A one sided friendship with you, I've got to chase
Slow down so I can smell the roses
But the road you chose is crooked and unpaved
My tires are spinning but to no availThat I'll be around only if you want me to
Be there by your side, I'm ready for you
So don't be afraid
'Cause I know what you're going through
So when you think it's time, I'm ready for you
I'm ready for youThat I'll be around only if you want me to
Be there by your side, I'm ready for you
Don't be afraid
'Cause I know what you're going through
So when you think it's time, I'm ready for youI'll be around only if you want me to
Be there by your side, I'm ready for you
Don't be afraid
'Cause I know what you're going through
So when you think it's time, I'm ready for you
I'm ready for you, I'm ready for you
