Inch By Inch

The Plimsouls

Lost in the dark, we're caught in slow motion
You close your eyes and let the world slip away
Before this night is done
We'll see what we've becomeDay by day, inch by inch
Can we take it bit by bit?
Inch by inch, someday we'll know
Things only time can showThis night's a dream that seems like forever
Still we don't know what tomorrow will bring
What will happen if we break
Every promise that we make?Day by day, inch by inch
Can we take it, bit by bit?
Inch by inch, someday we'll know
Things only time can showDay by day, inch by inch
The day will come to face the facts
Tho' inch by inch, we can't look back
Take it day by dayMoving inch by inch, it seems so slow
And we've got so far to go
