

# Commander

## NewWorldSon

Dancin', dancin'

Dancin', dancin'

Dancin', dancin'

Dancin'

I feel like the DJ is my bodyguard

You see the way he keeps me safe with the treble and that bass

I feel free enough to party hard

This dress won't go to waste, feels like I own the place

V.I.P to to be the boss

You see the way these people stare, watching how I fling my hair

I'm a dance floor lover

Baby, there's no other who do it like I do it, yeah

From here on out

I'll be your commander

No fear, no doubt

I'll provide the answer

Right now I command you to dance

I'll be your commander

Now I command you to dance

I'll be your commander

Now I command you to

I-I'll be your commander

I'll provide the answer

Ain't no reason to celebrate

But you know we gon' have a ball, champagne spillin' from the wall

And I'll be partying 'til hella late

But I ain't worried not at all, I just give my driver a call, yeah

Tell him, pick me up at 8am

No we ain't stopping right here, we'll take the party to the crib

Let's go all night, baby

You won't find no lady who does it like I does it, yeah

From here on out

I'll be your commander

No fear, no doubt

I'll provide the answer

Right now I command you to dance

I'll be your commander

Now I command you to dance

I'll be your commander

Now I command you to  
It's jam packed  
So DJ where you at?  
I know you got my back  
So make that bass attack  
Let's make these people move  
You know I need some room  
To do what I do  
I'm 'bout to act a fool  
(Turn the lights on)  
From here on out  
I'll be your commander  
No fear, no doubt  
I'll provide the answer  
Right now I command you to dance  
I'll be your commander  
Right now I command you to dance  
I'll be your commander  
Right now I command you to  
I-I'll be your commander  
I'll provide the answer
